Asphalt Products

410 Quick Dry Asphalt Primer

A waterproof seal that traps and encapsulates dust and other loose particles prior to application of other sealing materials.

Great on concrete, felt, plastic, gypsum, glass, wood or metal.
- Seals - Bonds - Waterproofs - Rust Proofs

Asphalt Primer

Roofers Choice 911 Emergency Roof Patch

This natural mineral compound, expands into a gel instantly upon contact with water. Perfect solution to make a temporary leak-proof seal for flat built-up roofs. Non-polluting and will not support flame. Can be applied when raining, snowing, melting ice, even in standing water! Comes in a 25 lb. bucket.

Butyl Magic... For a Permanent Watertight Repair in all Weather Conditions.

Use on EPDM, TPO, Hypalon, SBS and APP Modified, Asphalt, Metal Roofs and Tile, as well as, many other building materials.

Works on Metal Roofs

Lap Seams

Add-ons

Industrial Strength Adhesive Works in all Climates

Butyl Magic is a self-adhesive sealing tape made of a butyl rubber compound, protected by a reinforced metal film in aluminum, available in various sizes/colors.

Butyl Magic is highly adhesive to many materials and especially to plastic, glass, steel, poly carbonate and wood.

Characteristics

- Cold Applied
- Waterproof and self-sealing
- Excellent adhesive properties at low temperatures
- Excellent heat stability
- Excellent in vertical applications
- No flowing under heat
- No oil migration
- Resistant to tear, ageing and UV-rays
- Solvents free
- No special tools are required to install **Butyl Magic**.
- Service temperature -40°F to 240°F

Butyl Magic

- Available in 2", 4", 6" and 12" by 50 feet
- Colors are black, white and aluminum
- Standard roll 33 mil. thick

39" by 50 feet **BT39-White**

6" by 25 feet 60 mil. **BTS6-Black**

6" by 25 feet 60 mil. **BTS6-White**

Surface Preparation

Butyl Magic is compatible with most building materials, metals and flexible or hard plastics. The surface should be clean, dry, smooth and dust-free. If the installation surface is porous, Butyl Magic Primer must be applied in a quantity of +/- 250 gr./sqm. The use of Butyl Magic Primer is in any case advisable, and the manufacturers instructions must be followed because using the wrong Primer can influence the tape efficiency.

Butyl Magic Primer

- 1 Quart
- Brushed on, covers 75 Sq. ft.

Steel Pump Jack Systems

Pump Jack

- Accommodates two 2" X 10" wood planks with toe boards attached
- Foot action does all the work
- Raise to position and lower with the hand crank
- Positive double-lock system brake secures itself to wood poles
- For use with fabricated wood poles constructed of spliced 2" X 4" up to 30' in height
- Hand crank specifically designed to maximize performance and durability

PJ-20221

Pump Jack Workbench & Guardrail Holder Combo

- For wood staging
- Works with pump jack system
- Workbench allows tools and materials to travel with the work platform

PJ-04022

Pump Jack Brace

- Designed to secure fabricated wood poles to building
- Provides rigid steel triangular bracing as required by OSHA

PJ-0201

Pump Jack Pole Anchor

- Provides mud sill in loose soil conditions
- Provides additional margin of safety and security when used in accordance with instructions
- Fits double 2" X 4" wood poles PJ-Anchor

PJ-Anchor

Trash Chute System

System includes top hopper, support beams, counterweights, safety rails. After assembly, the system allows an unobstructed path to the hopper-wheelbarrows, workhorses and dump trays can roll directly to the hopper without any support beams getting in the way. Safety guard rails at the roof edge keep your workers safe. The counterweights at the ends of the support arms hold the system securely to the deck while the opposite ends project beyond the roof edge to support the trash chutes. *Chute Sold Separately*

TrashCS

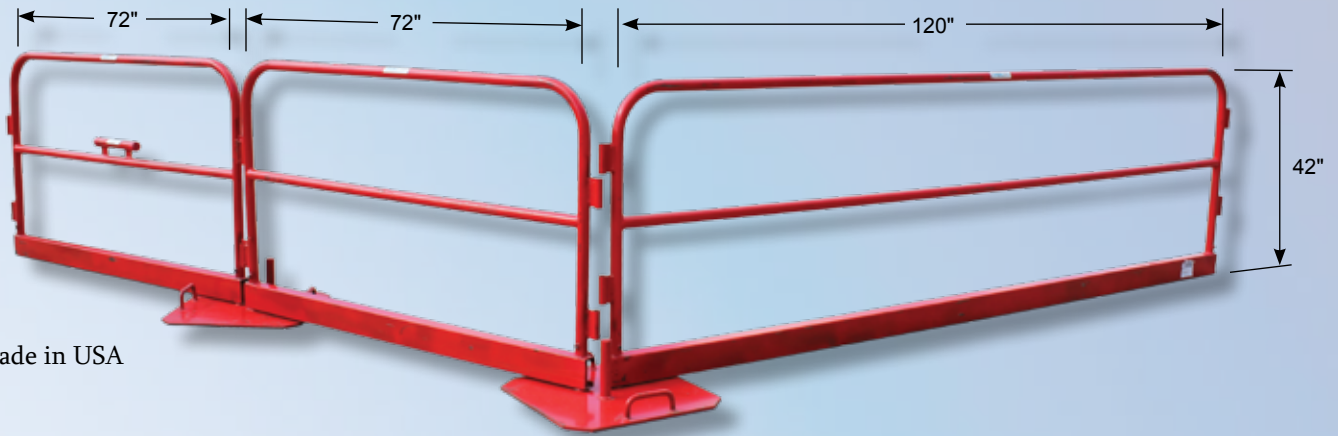

Trash Chute

Trash Chutes keep the job site operation running efficiently and looking professional. The chutes are designed to eliminate fly-away debris and prohibit property damage. Each chute is made of a lightweight polyethylene that is extremely durable and wear resistant. Weighing only 28 lbs. each, the 30" diameter x 4' long chutes can be stored flat or quickly assembled by attaching four bolts.

Chute

- All pieces are connected with quick pins attached right to the system, providing quick and easy installation
- The safe way to dump debris over the roof edge
- No tools needed for assembly
- Can be assembled without a roofer hanging over the edge of the roof

Made in USA

Guardrail Systems with Steel Toe Boards

Guardrail Systems with Toe boards were original tested by an independent outside testing laboratory to exceed current OSHA requirements for a "Motion Stopping Safety System" when properly set up. These systems are less expensive per foot than other guardrail systems, PLUS these systems come with 4" metal toe boards already in place. Toe board, such as 2 X 6 boards must be purchased with all other systems. 2" X 4" boards cannot be used since they are not actually 4" high.

6 feet Guardrail and Toe Board

AC Jack Set

A safe and easy way to lift air-conditioning units off the roof. Simply slide the jack bars under AC unit, mate the male-female bar ends and crank up the 4 heavy-duty jack assemblies. Jack interlock system will span 46" wide, and up to 10' wide with extensions.

Jack assemblies have large metal pads underneath. Bars have angle iron lifting pads for extra stability.

AC Jack Set includes four jacks with telescoping bars and two extension bars.

AC-Jack

Long Handle Hoisting Wheel

- Convert any ladder to a Hoisting Wheel
- 12" aluminum wheel, bearings and a sturdy all steel frame
- Hoisting Wheels accommodate both $\frac{3}{4}$ " and 1" manila rope
- Powder coated orange

LHH-Wheel

Hook Style Hoisting Wheel

- 12" aluminum wheel, bearings and a sturdy all steel frame
- Hoisting Wheels accommodate both $\frac{3}{4}$ " and 1" manila rope
- Powder coated orange

HH-Wheel

Pig Tail Hook

- Made out of $\frac{1}{2}$ " round steel
- Used for hauling buckets and other materials to the roof

PT-H

3 Strand Manila Rope with Forged Snap Hook

Available in sizes:

- $\frac{3}{4}$ " X 60' **Manhook-60**

- $\frac{3}{4}$ " X 100' **Manhook-100**

Core Cutter

- Powder coated
- 2" core sample

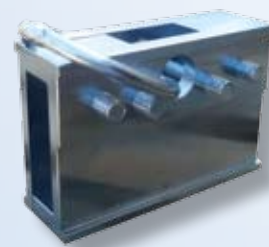

CC-110

Two Way Standing Seam Roof Anchor

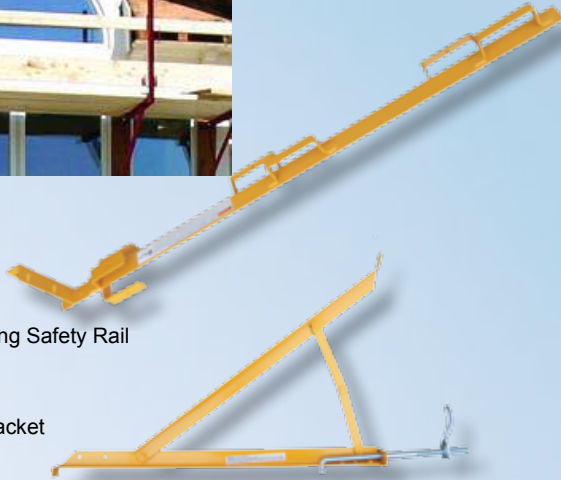

- Unique reversible design allows for seams up to 1" wide X 2" tall
- Anchors securely without damage to completed roof
- Designed for one person single tie off and can be used with retractable lanyards, vertical lifelines, and shock absorbing lanyards
- Meets OSHA requirement

10600

Staging Safety Rail
Staging Bracket

Side Wall Bracket Guardrail

- Steel construction
- Required when bracket is installed above 6' off the ground
- Provides installation of guardrail mid rail, and toe board

SW-Rail

Side Wall Bracket

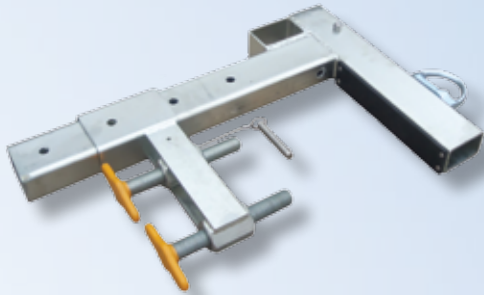

- Rated for 2 workers per 8' section plus 75 lbs.
- Folds for compact storage and transportation

SW-Bracket

Parapet Anchor System

- Single point tie-off
- Easy to grip adjustment handles
- Safety pin allows for secure and simple adjustments
- Anchor can fit wall from 4" to 20" thick
- Can be used with shock absorbing lanyards or retractable lifelines
- Meets OSHA and ANSI requirement
- Weight 31 lbs.

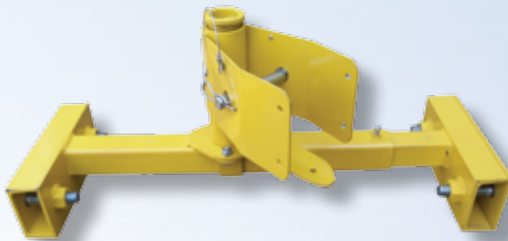

I5171

Standing Seam Roof Clamp

- Set screw leg adjustment for 24" to 36" seam spacing
- Clamps pinch mount to seams. No penetration of roof material required
- Allows retractable lifeline to swivel 360 degrees
- 310 lbs. capacity
- Meets OSHA and ANSI requirement

00250

Guardrail System Post

- Powder coated
- 42" tall
- Hold 2 2" X 4" boards
